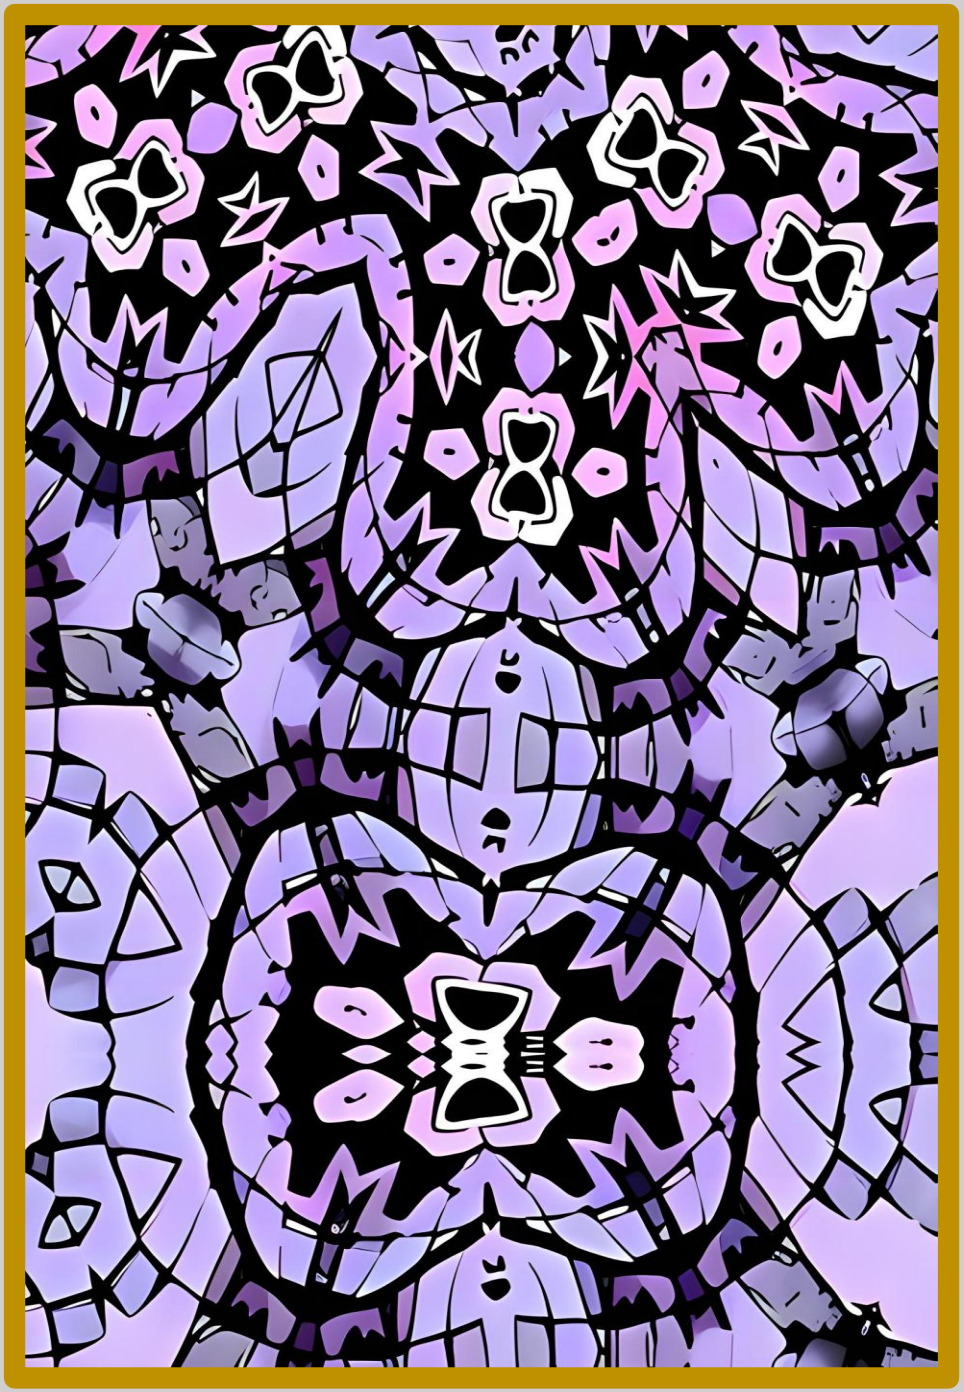
Monsieur Seine has entrusted me, as the lead therapist for Emil at our esteemed GIS-GIS Addiction Treatment Facility and Jamaican Voodoo Gift Emporium located at the intersection of Central and Grand Avenues, to address the troubling rise in cases of Red Curry Pancake Paste Addiction within Ward 5.

Initially, this issue was largely overlooked, as the substance was primarily associated with the influx of undocumented GOF Zombie Sample refugees being resettled in the surrounding areas of Ward 5. However, the situation has evolved dramatically, with an alarming number of local Emil enthusiasts now succumbing to this addiction, blindly following every eccentric and potentially hazardous notion propagated by Mister Emil.

This shift not only highlights the urgent need for awareness and intervention but also underscores the responsibility we have to protect our community from the dangers of such misguided beliefs.



Furthermore, Monsieur Seine has asked me to address our third effort in managing Mister Emil's deteriorating health. I find myself limited in what I can disclose publicly, as I must adhere to the ongoing HIPAA regulations established by previous administrations.

It is quite perplexing that these guidelines have not been updated or revised, despite the sweeping changes brought about by Ahriman and his Great Social Reset Revolution, as well as the initiatives of the New Tulsa Government.

It is disheartening to see the new government's health officials choosing to ignore a pressing issue that demands attention.

I feel compelled to address those who may idolize Emil and aspire to replicate his reckless lifestyle as a wandering Internationalist Hobo.

With the support of WWWG Productions, this book aims to shed light on the devastating impact of addiction on Emil's already fragile mental state, a reality starkly illustrated through his recent art therapy class creations.

It is crucial for young people to recognize the dangers of such a path and to understand that what may seem appealing on the surface can lead to profound consequences.

Mister Emil asserts that his situation should not be classified as an addiction; rather, he describes it as a unique practice involving the freebasing of Red Curry Pancake Paste. He acknowledges that he enhances this concoction with a small amount of menthol extract to flavor of the standard mixture, which remains readily available at FamilyMart Stores throughout the Ward.

Emil passionately argues that this method serves as a scientific approach to organically modify, or as he insists, to fine-tune his magnetic frequencies.

He believes this alteration enables him to potentially breach the magnetic membrane barrier that he claims divides our reality from what he describes as the expansive realms of the lower levels of the Multiverse.

Attention to the vibrant new generation and devoted fans of Emil: it is crucial to be aware that the New Tulsa Government has announced its intention to classify the Red Curry Pancake Paste/Mixture, along with other substances such as bath salts and Captain Crunch Cereal, as “Class A” illegal drugs.

This decision marks the beginning of a stringent campaign against these substances, which includes the imposition of severe, long-term internment at a FEMA Re-Training Facility for those caught in possession. As you navigate these changes, keep in mind the GIS-GIS Mantra: “Be cool, stay in school, chew gum, and always keep an eye on the parking meters!”

This mantra serves as a reminder to remain vigilant and responsible in these challenging times or as the Ward's patron saint, Mrs. Nancy Reagan, just say "NO!“
